## **riletto chest of drawers**

Its pure, streamlined design and unusual combination of materials make the **riletto** chest of drawers a one-off: the white leather cover of the sides stands out from the dark drawers of natural walnut lending the chest of drawers an impression of lightness. A design which perfectly matches and complements the prize-winning **riletto** bed from designer Kai Stania. The drawers are completely without handles having only touch-sensitive surfaces demonstrating the optimal selection of the wood in the company's own works. We have consciously decided not to use an electronic mechanism in order to avoid electronic radiation in the bedroom.
